EDUCATION

Bachelor of Information Technology, Interactive Media Design

September 2018 - Present

Carleton University, Ottawa, ON

RELEVANT SKILLS

Technical skills

- Developed a website using HTML to create the layout template and make the website easy to navigate through improving user experience
- Applied JavaScript to add functionality to a website like creating a popup box when submitting a form
- Remodelled a C++ program by applying class structures and MVC architecture to increase efficiency and minimize runtime
- Prototyped a website for the database of a hypothetical hotel using PHP which enabled features like deleting, updating and viewing records of the database

Design skills

- Re-imagined images assembled for a magazine using Adobe photoshop to crop and re-scaled the image and also used adjustment layers to colour correct and modify tone Values
- Integrated CSS into my portfolio website to create background colours, define the layout and specify font sizes and types
- Illustrated the major artwork for a book cover design using the pen tool and various brushes available

Communication skills

- Conducted surveys for user research by calling people related to project being done
- Communicated with peers in group projects and participating in presentations
- Facilitated in the running of the Culture Fest by helping in certain parts like signing in participants and planning event Agendas

_____

APPLIED PROJECTS

November 2018

Website design
- Collaborated with group members to design a website, constructed wireframes by hand and created mock-ups with adobe muse and for a client, based on their requirements and compiled user preferences Identified through intense documented research

Book cover Design
- Illustrated the cover design using the illustrator pen tool to create the main silhouettes and the paintbrush tool to add more detail like texture and Dimension.
- Created dynamic typographic designs that clearly reflected and communicated the story of the book.

Website Design
- Designed and developed a personal portfolio website using HTML to create the layout and content.
- Integrated CSS scripting to customize all the colours, font and even added some parallax scrolling effect features
- Added the page animations and button functionality with JavaScript and created contact forms linked to my email.

Magazine design
- Assembled and curated different graphic content which went along with a conceptualized mood board
- Reimagined, cropped and edited different images curated from the internet and personal files using photoshop; then arranged them all in a previously planned visual layout
- Drew graphic designs to bring everything together and, in the end, become a magazine highlighting Ottawa's community, tourist attractions and culture.

WORK EXPERIENCE
Sales Associate

2017-2018

Mr. Price (MRP)
- Working with team members to ensure projects and assigned jobs are finished on time and at an acceptable pace
- Creating and holding conversations with customers to satisfy their requirements

_____
